# CLOSE YOUR EYES, OPEN YOUR SENSES

Step into the warmth. Open your senses. Feel your thoughts clear and enjoy the calmness that spreads through your body. Your muscles relax and the tension melts away. Your thoughts wander, your dreams become reality. In the warmth, the truth emerges and your soul is laid bare. Our ambition is to create the ultimate pleasure that opens the door to your inner being. This is our promise to you. Design and quality are our great passions. Our Scandinavian designers challenge themselves to design a setting that is an aesthetic statement. Ever since our founder Sven-Olof Janson made his first sauna in the 1950s, we have unveiled one ground-breaking innovation after the other. Every little detail is infused with consideration and love. Open the door and discover for yourself. Awaken your senses.

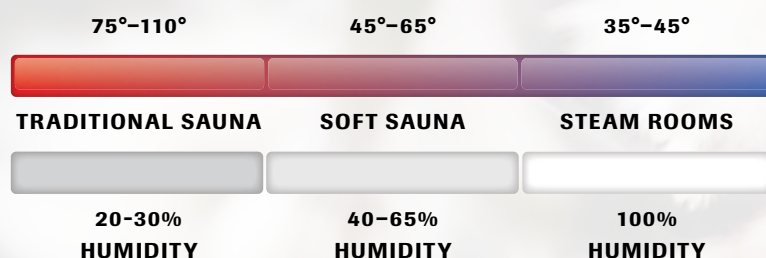

# SOFT SAUNA, AS GENTLE TO YOUR SKIN AS IT SOUNDS

We call it Soft Sauna - a gentle way to share a pleasurable experience. It is just as much a way of life as it is a technical sensation, and yet it takes up just a few square metres of space in your home. Invite your friends and family, select a therapeutic essential oil, feel the warmth and gentle steam engulf you, and enjoy being together – let Soft Sauna make an impression on your day.

## WHAT'S YOUR TEMPERATURE?

Soft Sauna picks up where traditional saunas leave off. Some people prefer a hot and quick sauna, others like to linger in mild temperatures,

enjoying the gentle steam and aromatic fragrances. See here which temperatures and options are ideal for you and your moment.

**LINGER A WHILE  
LONGER IN THE SAUNA**

Imagine having a spa in your home, equipped with everything a professional spa can offer, neatly contained in a space smaller than 1.3m<sup>2</sup>. A spa where you and your family can relax together, enveloped in comfortable heat, soft steam and aromatic fragrances. And where you can also enjoy the relaxing dry heat of a traditional sauna. Choose the sauna cubicle and heater that suits you and the way you want your moment to be. A moment that stretches on and beyond.

# MADE IN SWEDEN – ALWAYS

Tylö is the world's strongest brand in the sauna sector. Since the inception of our business in 1951, we have focused on producing reliable performance, technologically advanced products for quality conscious consumers. Our manufacturing operations are conducted entirely in Sweden with a steadfast commitment to protecting the environment. All wood and metal waste materials are recycled to help reduce consumption of raw materials and to mitigate our impact on the environment. We do not use timber from rainforests. We only use timber that has been harvested using traditional methods. As a Swedish manufacturer in Sweden, it feels good to be in full control of what we produce and it means that our customers can feel confident that they are choosing a professional and responsible sauna provider.

### **ENJOY SOFTER WARMTH, YOUR WAY**

Our sauna heater is the heart and the key to how you can enjoy your home spa in several ways – exquisitely surrounded by gentle steam and aromatic fragrances or traditionally in a relaxing dry sauna heat. The way we want to spend our time in the sauna is a matter of personal preference and depends on the needs of the moment. Our new combined sauna heater with a water tank and steam generator is therefore designed to meet a multitude of preferences. You can find out more about our Combi heater further on in this catalogue. Look for the above symbol.

**HEATERS SD 16/SD 20**

**CONTROL PANEL CC300T**

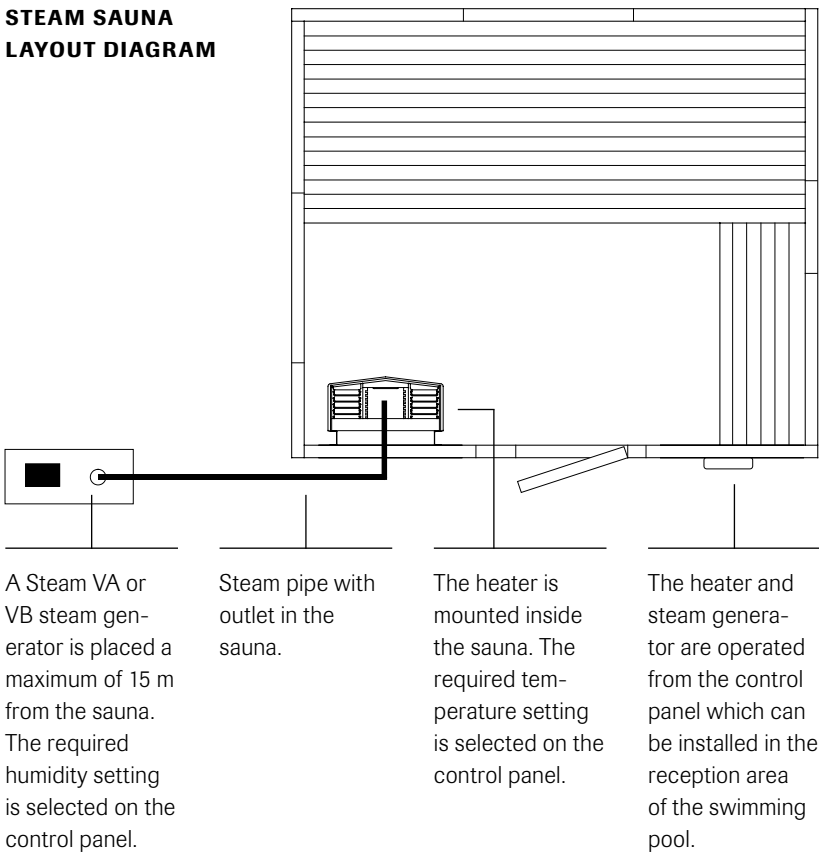

# TYLARIUM™

Tylarium is Tylö's name for a range of sauna bath products that combine to produce a total well-being experience. There's a Tylarium for most purposes. The basic idea is a combination of sauna and steam bath with a range of design and feature options. The heater and control panel below are an excellent choice for use in a Tylarium.

# FIVE GOOD REASONS TO CHOOSE A TYLÖ HEATER

## 01

### ELEGANT DETAILS

All Tylö heaters are manufactured by sauna bathers for sauna bathers. This means that each heater has been carefully designed to deliver the ultimate sauna experience. The grille on Tylö's original heater is angled to ensure optimal distribution of hot air. The built-in water reservoir creates a more comfortable and gentler climate – exactly as it should be in a genuine Tylö sauna.

## 02

### FAST HEATING THAT SAVES ENERGY

Tylö's original heaters all heat a sauna extremely quickly – up to twice as fast as any other heater. Tylö's unique, twin-side air chambers provide enhanced hot air distribution (taking just 25 minutes to reach a normal sauna temperature of 80°C).

Moreover, with the patented divided output features, Tylö heaters can realise energy "savings" of up to 30%, making them an energy-efficient choice. The divided output feature means that the sauna heater automatically switches to energy-saving mode when the temperature reaches the desired level and maintains it for the length of time you spend in the sauna.

All in all, this is a financially-sound, long-term investment if you are looking for fast and comfortable sauna heating.

03

## **SAFETY A HIGH PRIORITY**

Overheat cut-outs, thermostats and temperature sensors are vital components that are selected with meticulous care to ensure maximum safety. It is also assuring to know that Thermosafe™, Tylö's unique protective coating, prevents the exterior from becoming too hot to the touch.

04

## **EFFECTIVE WATER SPRINKLING**

Unlike many other sauna heaters, Tylö's original heater has a deep, centrally-located stone compartment. This ensures that almost all the water sprinkled over the stones turns into steam.

05

## **MADE IN SWEDEN WITH A LONG WARRANTY**

Tylö manufactures its sauna heaters completely in-house, without compromising quality. The heating elements, which are the heart of the heater, are manufactured in a closely-monitored process to ensure reliable performance and long life.

The choice of materials, such as a stainless steel stone compartment and aluminium top, reflects Tylö's high quality standards for all of its products. This is important and good for you, no matter how frequently or seldom you take a sauna.

Thanks to in-house production, scrupulous quality control and generous warranties (five-year material warranty), the consumer can be assured that a Tylö heater is a reliable purchase.

# SAUNA:

A sauna is total relaxation and cleansing for body and soul. As the world's leading sauna manufacturer, Tylö offers saunas, heaters and bespoke solutions. Our extensive range includes small saunas for your bathroom up to exclusive saunas for larger facilities. The exceptional design and quality of Tylö's heaters set them apart.

**OPTIONAL & ACCESSORIES**

# SAUNA ROOM

Planning to include a sauna when building a new property or renovating an existing one is simple – there is usually enough space. And it is even easier if you let us here at Tylö manufacture and deliver your sauna room as a prefabricated self-assembly package. We offer prefabricated sauna rooms in all variants, from small models adapted for the bathroom in your home to large, exclusive sauna rooms for hotel suites or corporate hospitality suites.

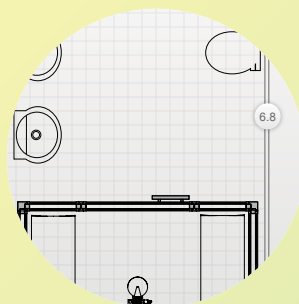

### HOME SPA FROM 1.3 M<sup>2</sup>

A sauna is total relaxation and cleansing for body and soul. As the world's leading sauna manufacturer, Tylö offers saunas, heaters and bespoke solutions. Our extensive range includes small saunas for your bathroom up to exclusive saunas for larger facilities.

The exceptional design and quality of Tylö's heaters set them apart.

### ONLINE TOOL

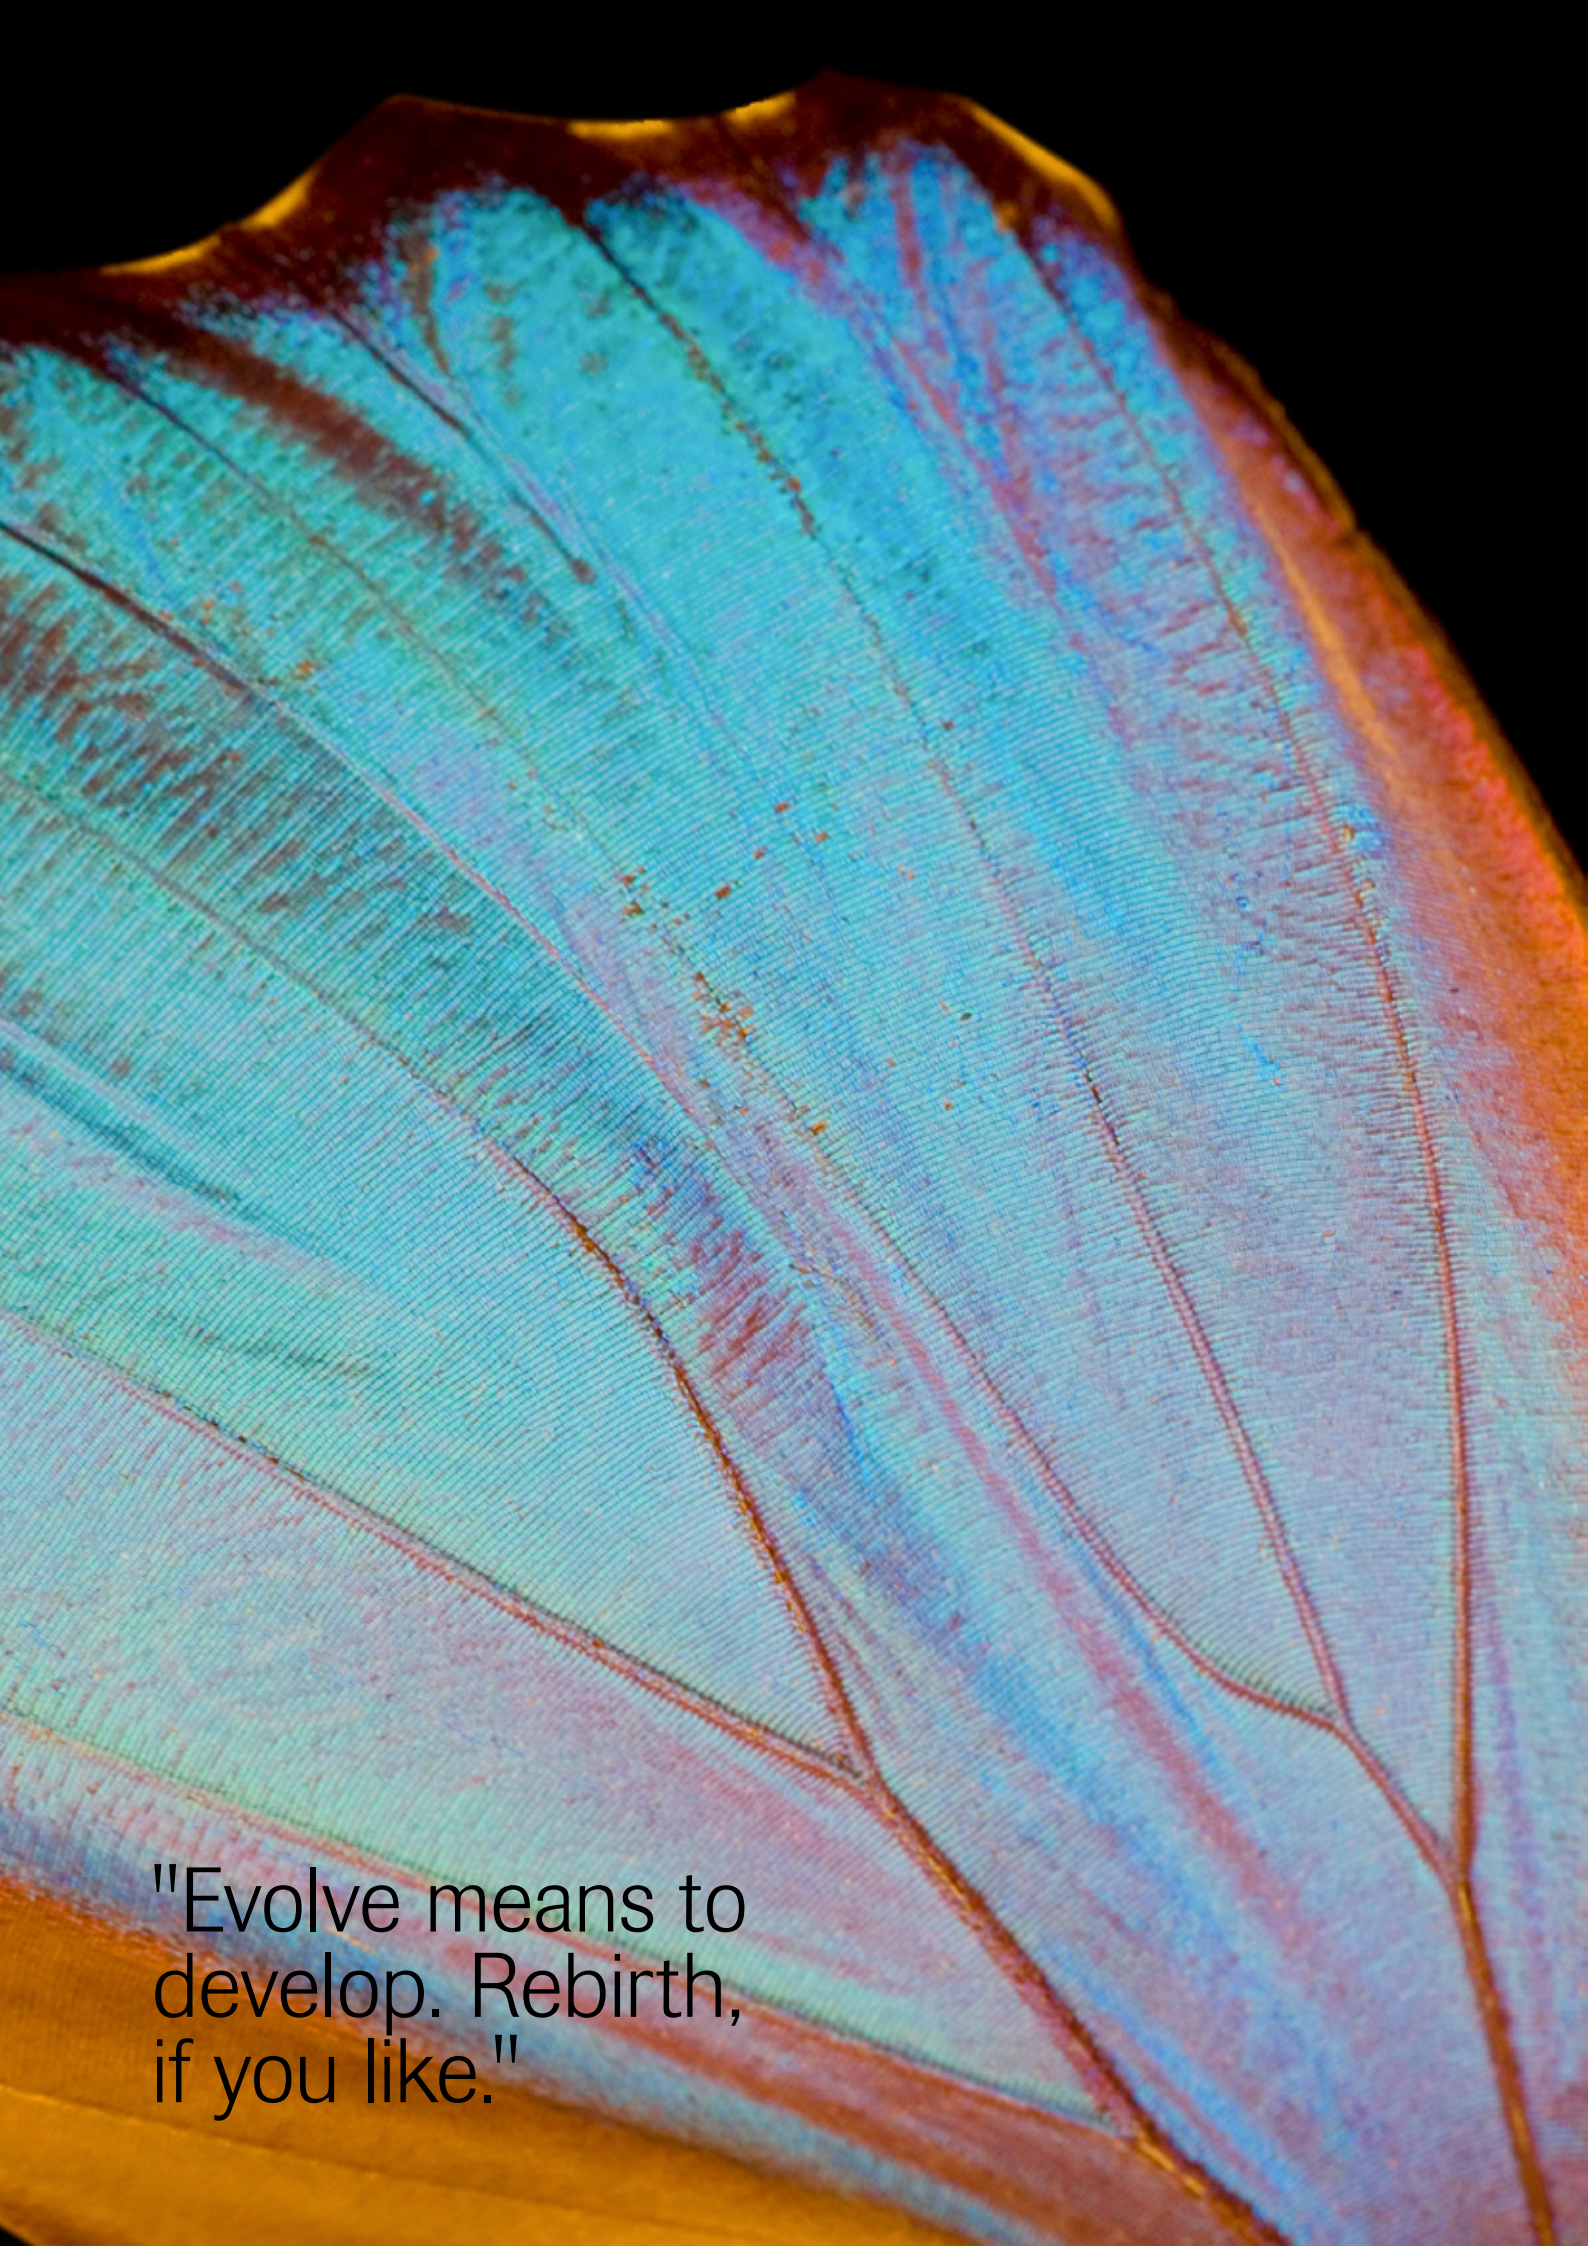

Let realistic bathroom visualisations inspire you. Select the type of bathroom and colour scheme you prefer and discover how easily you can make one of our saunas blend into your bathroom. This is an excellent tool if you are considering renovating or wondering how your bathroom could be transformed.

### HEAT AND STEAM

Choose one of our combination heaters for a perfect steam sauna solution. You can, of course, enjoy a traditional sauna with this heater too. The Compact 2/4 offers a simple yet functional solution for traditional sauna bathing.

"Evolve means to  
develop. Rebirth,  
if you like."

### **A PACKAGE SOLUTION OR FLEX**

Are you feeling creative or looking for a turnkey option? Evolve brings you the best of both worlds - Package or Flex. Make quick and easy decisions or go for a more detailed approach.

## **SAUNA ROOM: EVOLVE**

Close your eyes and spread your wings. As if by magic, the larva transforms into a chrysalis and then into a fully-formed butterfly. This process happens amazingly fast and the end result is perfection. Evolve means to develop. We use the word to describe transition from one stage to another. A new form, function or intent. Rebirth, if you like. Transformation takes just four weeks for the monarch butterfly.

### **WHAT IS AN EVOLVE SAUNA ROOM?**

Tylö Evolve gives you almost unlimited versatility in customising your sauna to your own taste. Evolve is available in three basic versions with varying degrees of glass integration. The Flex system also allows you to extend the area in stages. On top of this you have a range of stylish optional extras and heaters for creating your own Evolve sauna, entirely tailored to your bathroom.

### **OUR NEW SAUNA ROOM IS CALLED EVOLVE FOR A REASON**

The name carries a unique meaning and Evolve is therefore no ordinary sauna. We bring you the best of both worlds for an unequalled sauna experience. The beautiful aspen interior with its genuine, luxurious feel harmonises with large glass panels and an open view of the bathroom.

Run your fingers over the hand-crafted aspen and drift into a relaxing reverie. Feel your inspiration awaken and your thoughts become clear. Close your eyes and spread your wings.

## WHAT IS INCLUDED IN EVOLVE?

Evolve Standard is the first step into the world of Evolve saunas with its authentic design and finish. It offers everything you need to experience true sauna pleasure in your own bathroom. Pre-insulated walls/ceiling, floor frame and ventilation and an unrivalled standard of craftsmanship throughout. If you want a more open feel with larger glass panels, Evolve Plus GF or Evolve Plus GC are the answer.

## SAUNA ROOM: **EVOLVE STANDARD**

The feel of quality and genuine craftsmanship are immediately apparent. First, you choose whether to have spruce or aspen panels, then vertical or horizontal bench slats. The sauna door is included and is naturally available in a variety of designs.

**❶ EVOLVE STANDARD**

Perfect sauna solution for limited budgets.

**❷ EVOLVE STANDARD CORNER**

Corner mounted door for flexible installation.

## SAUNA ROOM: EVOLVE PLUS GF/GC

Larger glass panels increase the sense of openness. If you like openness and natural light flooding in, then Evolve Plus GF will appeal. Evolve Plus GC stands for Glass Corner and offers you maximum vistas while relaxing in the sauna. The highly exclusive Plus GC sauna promises an exquisite experience with its expansive glazed design.

### ③ EVOLVE PLUS GC

If your bathroom is spacious and beautiful, the dimensions of the Plus GC will really come into their own.

### ④ EVOLVE PLUS GF

Evolve Plus GF, which stands for Glass Front, gives the sauna a much greater glazed area.

## SAUNA ROOM: **IMPRESSION**

Tylö's Impression sauna range takes up a minimal amount of space from as little as 1.3 m<sup>2</sup>. This sauna solution can contain both a traditional sauna and a gentler steam sauna. It's a revolution in home spa design, compact enough to fit into even a small bathroom. The sauna cubicle comes complete with two sauna benches at different levels. The anodised aluminium profiles of the frame conform to a registered design that ensures maximum versatility within the unique Tylö system. They simply clip together, so no screws are needed for assembly. The sleek lines of the design and the detachable jalousie are a joy to behold – and simplicity itself to clean.

#### WHAT'S INCLUDED

- Insulated walls
- Ceiling section
- Door section
- Aspen and ash interior
- Backrest
- Lighting
- Hygrometer/Thermometer
- Aluminium floor frame
- Blinds\*
- Corner and ceiling mouldings
- Vents and assembly hardware

## SAUNA ROOM: **VISION**

Let the light flood in. Tylö's Vision saunas are designed to suit either a commercial setting or a normal home. All of Tylö's Vision models have an attractive exterior with large glass surfaces and wall panels made of high-quality aspen wood and a soffit with recessed downlights. The elegantly curved glass door can be hung both from the right and the left, increasing the potential to achieve a well-planned home spa. The door sits in a robust alder frame and is made of tempered safety glass like the other glazed surfaces. The handle has a magnetic latch.

### **VISION**

All these saunas can also be installed reversed. Exterior height 2030 mm.

**SPACE VISION 150, CORNER ENTRANCE**  
ITEM NO. 9510 7310

## WHAT'S INCLUDED

Insulated wall and ceiling sections clad in wooden panels

Interior fittings made of narrow strips of alder

DGR glass door

Light fittings and transformer

Heater installation plate

Detailing for concealed wiring

Aluminium floor frame

Corner and ceiling mouldings

Vents

Assembly hardware

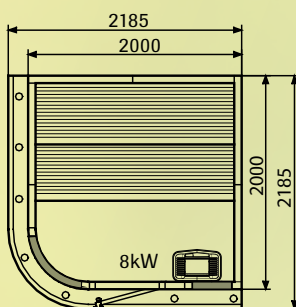

SAUNA: SAUNA ROOM

## QUITE SIMPLY A PIECE OF CRAFTSMANSHIP

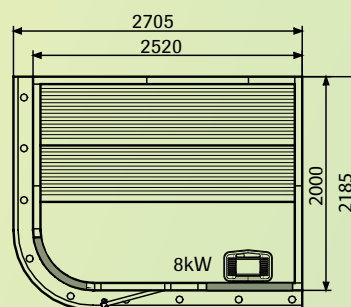

Recessed downlights in the soffit spread a pleasant glow over the outside alder wood walls. The inside walls and ceiling, made of natural aspen, contrast beautifully with the fittings made of narrow strips of alder. The wide, comfortable benches are fitted with skirting panels, and behind the beautifully designed backrest, indirect lighting contributes to the warm and welcoming impression.

## GLAZED SURFACES CREATE A FEELING OF SPACE AND LUXURY

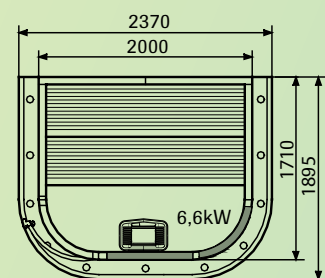

The sturdy door, like the other glazed surfaces, is made of tinted, tempered safety glass. The door leaf sits in a robust alder frame and has a handle with a magnetic door catch. And you can, of course, decide whether you want the door to be hung on the right or left-hand side. All seven versions of Tylö's Vision sauna are reversible - see the layouts below. They also show the heater output required for the different room sizes.

# DESIGN ROOM

Tylö's Design Line is a series of brand new sauna designs. Each one is an absolute concept of style, ready to be used. The next eight pages show the best we have to offer in terms of materials and design. You can combine features as you like or perhaps you prefer them as they are.

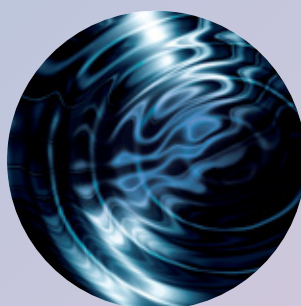

#### FOUR SHADES OF LUXURY

New materials and designs catch the eye and Tylö is definitely not afraid to challenge conventional solutions. Passion, Sensation, Panorama and Simplicity turn preconceived notions of what a sauna is or what a shower should look like on their heads.

But don't be swayed by them - other designs, materials and features are just as possible.

#### INNOVATIVE DESIGN

Our product developers keep a close eye on developments in design, décor and architecture. When faced with a new challenge, they incorporate these trends with their knowledge of technology, electronics and different materials. Finally, they utilise our accumulated expertise of saunas, showers and steam baths. The results are usually astounding.

## DESIGN ROOM: **PANORAMA**

Chic and beautifully designed, Panorama looks as though it belongs in a large, luxurious home. The combination of materials and the original style enhance the splendour and create a continuous flow of new angles and perspectives. The discreet soffit light bar illuminates down onto large, tinted panes of glass and horizontal tiger ash. The interior is clad in vertical aspen panels. The three or four levels of elegantly overlapping benches are also made of aspen.

Discover and  
find out more at  
[www.tylo.com](http://www.tylo.com)

Discover and  
find out more at  
[www.tylo.com](http://www.tylo.com)

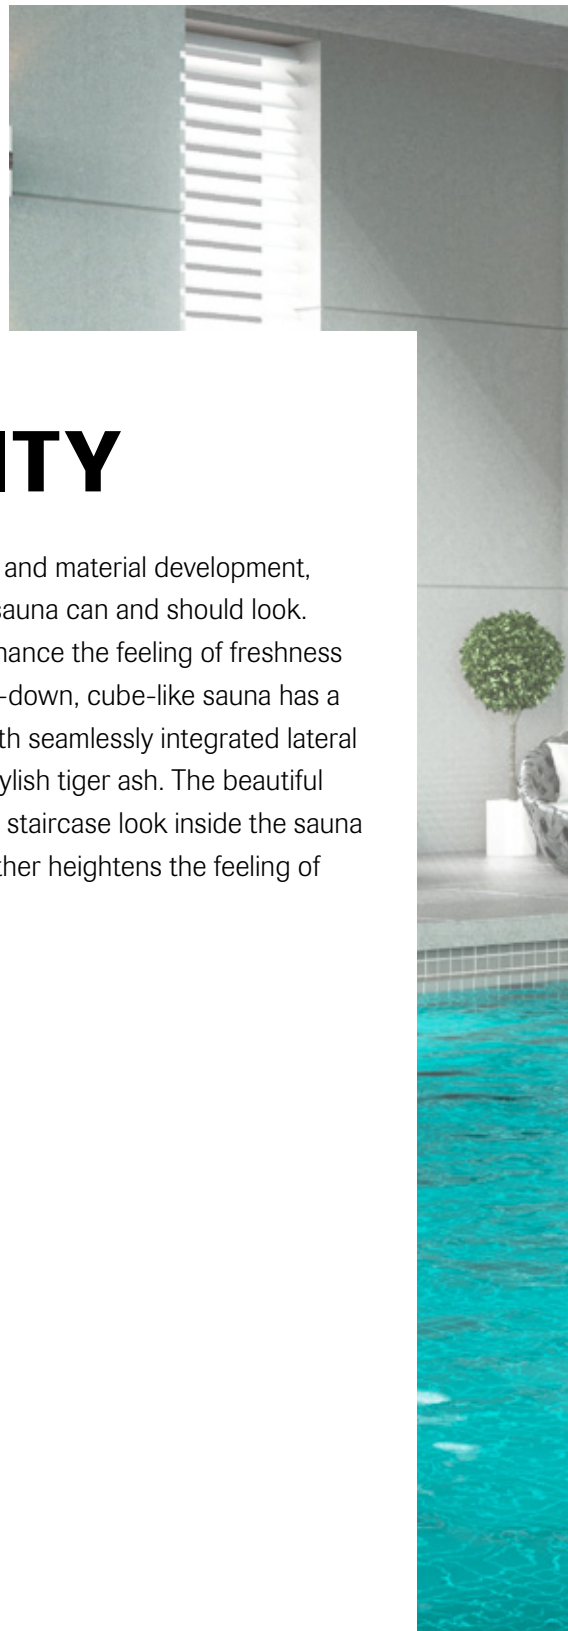

## DESIGN ROOM: **SENSATION**

There is good reason why the waterfall is centrally positioned. The dark wood and beautiful design with diagonal ribs are magnificent, but all eyes are on the steaming, cascading water feature. Even without this option, you can expect a superb sauna experience. The sloping rear wall saves energy and creates a gentle thermal breeze inside the room. The emphasis on natural materials inside the sauna is highlighted by the heat-treated espresso aspen on the rear wall, interior lining and other features. The benches are made of slightly lighter tiger ash and the exterior cladding has a high-gloss finish.

## DESIGN ROOM: **SIMPLICITY**

By combining the best of design and material development, Simplicity challenges the way a sauna can and should look. The unexpected lines greatly enhance the feeling of freshness and exclusiveness. This stripped-down, cube-like sauna has a high-gloss lacquered exterior with seamlessly integrated lateral windows. The door is made of stylish tiger ash. The beautiful caulked aspen benches create a staircase look inside the sauna and the atmospheric lighting further heightens the feeling of novelty and innovation.

Discover and  
find out more at  
[www.tylo.com](http://www.tylo.com)

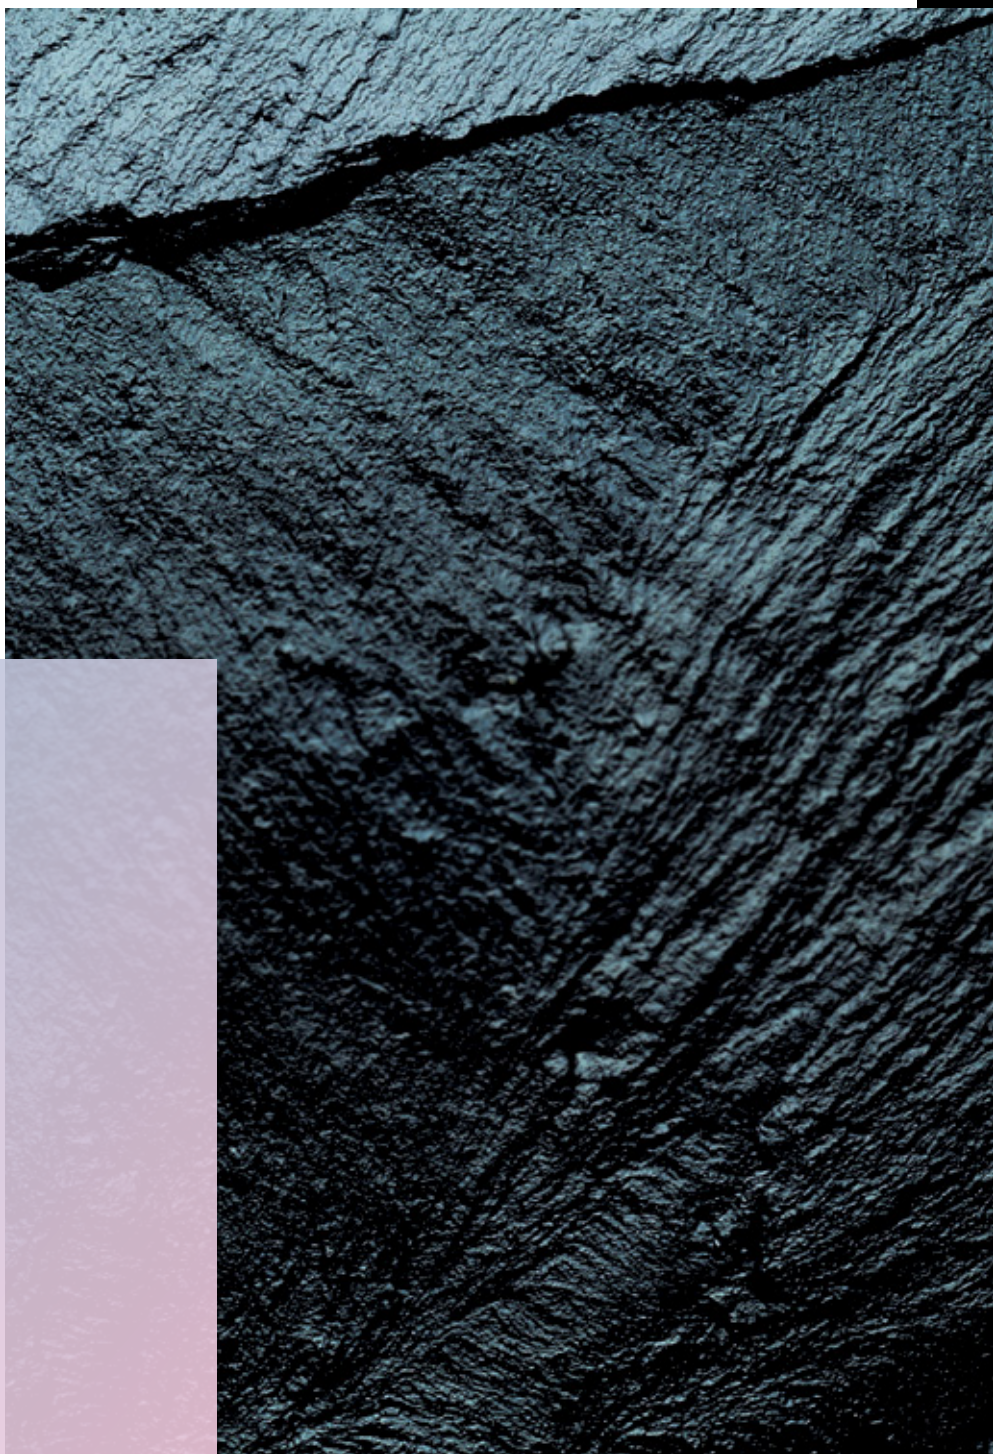

## DESIGN ROOM: **PASSION**

Passion takes Scandinavian style to its extreme. The light beech veneer on the outside sets the tone and is complemented inside by aspen panels and American alder and aspen benches. Passion features a double ceiling with a light bar in the lower part, subtly illuminating the upper ceiling from below. Next to the heater is a beautiful slate wall and the door frame is made of espresso ash wood. The pattern of glass and wood on the front provides just the right amount of seclusion.

## Beauty of nature

For the Scandinavian market, Tylö centers on the very essence of what is known as Scandinavian Design. Distinctive design cues lie in radiating beauty through light colors and ample use of wood. The general feel is light, minimalistic and functional, which is demonstrated throughout the product line.

# TYLÖ AROUND THE WORLD

## The Royal heritage

Russia, an old country with a colorful past shows its rich heritage through a selection of Tylö products. We specifically aim at a discerning local market through the use of darker colors and luxurious features to provide a decidedly luxurious look and feel. A nod towards the wealth and richness of Russia's historical past.

## ASIA

# A paradigm of sophistication

With sleekness and simplicity we showcase some of our most elegant products, employing design cues from the magical traditions of Asian culture. By incorporating wood, bearing warm colors and softness to the touch, we capture the characteristics and traits of the Asian sense of serenity.

AROUND THE WORLD: ASIA

# TYLÖ AROUND THE WORLD

## FRANCE

## The new French revolution

Some significant traits of French aesthetics involve a certain flair – with elegance and grace in mind – juxtaposing old with new, modern with classic and ancient traditions with forward thinking. With our new line-up, we start a spa-revolution through traditions and cutting-edge sauna technology in tune with the edgy French design style.

**TYLÖ  
AROUND  
THE  
WORLD**

ITALY  
SPAIN

# Living the good life

Inspired by the Italian Renaissance ideal of 'disegno' in creating new ways to envision and reshape the world, Tylö has created several significant design features with a nod towards contemporary design while picking up the traces of an opulent past. We have brought to the market a portfolio that blends perfectly with local rich colors, luxurious materials and a general sense of "la dolce vita".

AROUND THE WORLD: ITALY / SPAIN

# BUILDING A SAUNA

Time for yourself, a personal oasis. Our exclusive sauna rooms have made Tylö a synonym for quality among sauna enthusiasts the world over. Treat yourself to a sauna room when building or renovating your ideal home. There is often enough space – you only need a few square metres. We have many different models for you to choose between, in various sizes and versions. If you require specific dimensions or an unusual design, our skilled craftsmen are here to help you.

**SAVE ENERGY**

The energy cost of taking a normal sauna, including heating, is approximately 35 pence. It is worth noting that all the energy the sauna heater consumes will benefit the house in the form of heat when the house's thermostat-controlled radiators switch to standby mode. As a result, the entire energy volume is reused. Another positive contribution to energy economy is that people prefer to shower in cooler water after their sauna. If you position the sauna in a corner against the property's outer walls, it automatically provides additional insulation, which means energy savings of about 500 kWh a year.

# THE RIGHT INTERIOR ENHANCES THE OVERALL FEEL

When it comes to the interior space of your sauna, you might find prefabricated modules a smart choice. As well as saving time and effort, you can be sure of really stunning results. Choose from wide-slat benches made of aspen, or narrow-slat benches made of alder or aspen. The features create a feeling of traditional craftsmanship, while the design is a more contemporary, Scandinavian style. Installation is simple and your sauna will look fabulous whichever wood and style you choose.

## STEP

# 1

Choose sauna panels.

### SAUNA PANELS

Tylö's sauna panels are available in five different designs, all made of grade A wood. The panels make a perfect match for Tylö's solid benches. All Tylö sauna panels have the STS profile and measure 12 x 95 x 2400 mm, except for the PRO panel which is slightly thicker.

1

#### 1 STS 240 SPRUCE PANEL

Size: 12 x 95 mm.  
Installation dimensions: 85 mm.  
Pack of 10.

ITEM NO. 9490 1280

2

#### 2 240 CEDER PANEL

Size: 12 x 95 mm.  
Installation dimensions: 85 mm.  
Pack of 10.

ITEM NO. 9490 0960

3

#### 3 240 ASPEN/TH PANEL

Heat-treated aspen panel (knot-free). Size: 12 x 95 mm. Installation dimensions: 85 mm.  
Pack of 10.

ITEM NO. 9490 1025

4

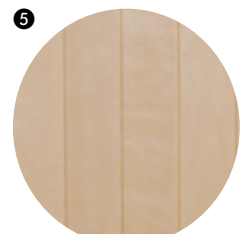

#### 4 STS 240 ASPEN PANEL

Knot-free aspen panel. Size: 12 x 95 mm.  
Installation dimensions: 85 mm. Pack of 10.

ITEM NO. 9490 1380

5

#### 5 PRO STS 240 ASPEN PANEL

Knot-free aspen panel. Size: 15 x 95 mm.  
Installation dimensions: 85 mm. Pack of 10.  
Particularly suitable for public facilities.

ITEM NO. 9490 1380

**STEP****2**

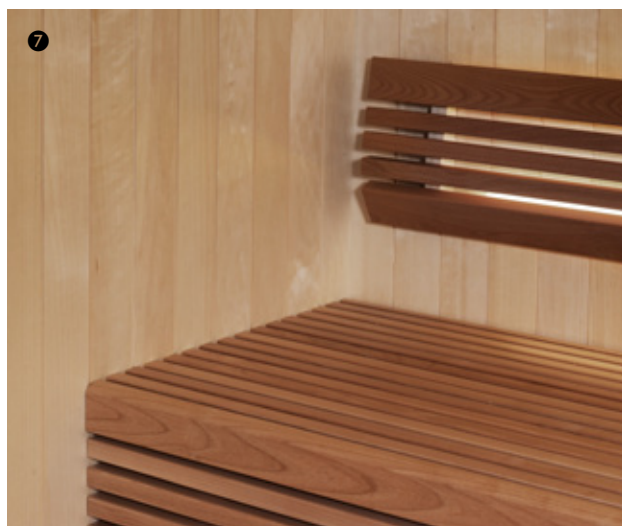

Choose your sauna interior style.

**6 WIDE SLATS**

The wide-slat, solid aspen E68 benches clearly display quality craftsmanship. The benches have been tested in compliance with the RAL Quality Mark specifications. See page 48 for more information.

**7 NARROW SLATS**

The narrow ESR slats are sturdily crafted from solid aspen or alder without visible screws. The benches have been tested in compliance with the RAL Quality Mark specifications. It is also possible to order legs for free-standing benches. See page 50 for more information.

**STEP****3**

Choose to add accessories and optional features.

**8 FLOOR DECKING**

The aspen floor decking feels smooth and warm beneath your bare feet and adds a sense of luxury and comfort.

**FLOOR DECKING 70X90 ASPEN**  
ITEM NO. 9005 9006

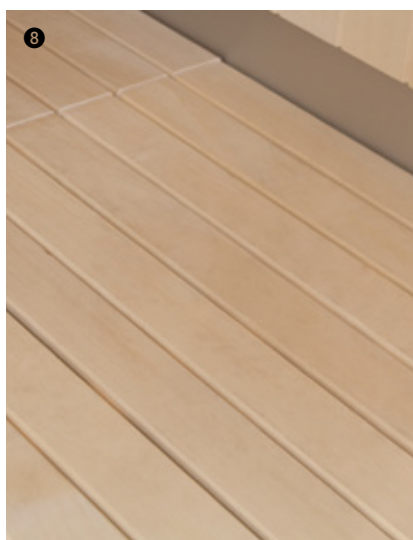

**FLOOR DECKING 61X85 ASPEN**  
ITEM NO. 90059015

**9 BENCH SUPPORT**

The bench can be moved with the addition of a pair of legs.

**BENCH SUPPORT ESR 410**  
ITEM NO. 9039 4180

**BENCH SUPPORT ESR 600**  
ITEM NO. 9039 4185

**MORE OPTIONS AND ACCESSORIES**

Your Tylö sauna can be fitted with a range of practical and comfort-enhancing optional accessories. Turn to page 82 to see the complete range of accessories.

## SAUNA INTERIOR: **WIDE SLATS E68**

The wide-slat, solid aspen E68 benches clearly display quality craftsmanship. The benches have been tested in compliance with the RAL Quality Mark specifications.

## ❶ SAUNA BENCHES

Prefabricated sauna benches made of solid aspen. The stably-designed benches can be cut to length. They are joined together using dowel rods and glue, without visible screws.

## ❷ BACKREST

The prefabricated solid aspen backrests are contoured for maximum comfort and also serve to screen off the light fittings, creating a gentle, indirect glow. The back support can be cut to the correct length.

# SAUNA HEATERS

Close your eyes and listen to your inner being. Pour a ladle of water over the hot stones and watch it sizzle and splutter. The steam rises in a cloud of comforting heat that envelopes your body. A liberating feeling. Our classic Tylö heater provides you with the pleasant experience of both a traditional sauna and a gentler steam sauna. Experience the sensation, feel revitalised and refreshed.

#### **THERMOSAFE EXTERIOR COVERING**

The widely-acclaimed Thermosafe protective coating helps prevent burns on accidental contact. Overheat cut-outs, thermostats and temperature sensors are vital components that are selected with meticulous care to ensure maximum safety.

#### **ECOSMART SAUNAS**

Tylö's smart eco features have made the sauna experience far more energy-efficient than before. Its patented "divided output" feature is good for your wallet, conscience and the environment. Once the temperature has reached the required level, the heater switches to energy-saving mode.

#### **GUARANTEED SAFE**

Buying a prefabricated sauna room is not only the simplest and swiftest way to turn your dream of a sauna into reality. It's also the smartest and the safest, too. That way you can be sure of a really well-made sauna that will serve you well, year after year after year.

## SAUNA DOORS

Every sauna door bearing Tylö's name is of the highest quality and is specially manufactured to withstand the considerable temperature differences between the outside and the inside of the sauna without warping or becoming deformed. All doors are supplied with reliable magnetic door catches and can be hung to open either left or right. If you want a sauna door with different dimensions or made from different materials, request a quote.

### 1 SAUNA DOOR DGB

Tylö's DGB is a range of simple, robust and attractively-priced sauna doors. DGB sauna doors have a door leaf made of tempered 8 mm safety glass, and are supplied in either tinted or clear glass. The finger-jointed standard frame (92 mm) is made of pine with a silicone sealing strip. The door handle is made of aspen and has a magnetic latch.

### ❷ ALU LINE SAUNA DOOR

The stylish glass door has an aluminium frame, elegant handle and magnetic sealing strip. The strips and handle on the inside of the door are made of alder. The door can be fitted to open on the left or right hand side. Matches Tylö's 60 G steam door in the same design. Outer frame dimensions 1870 x 778 mm. Tinted glass and aluminium profiles.

ITEM NO. 9103 2055

## GLAZED SECTIONS

By opening up the sauna with a glazed section, you let in more light, increase the space and enhance the sense of well-being. You have contact with the room outside and make your relaxation area a unified space. And as we make the glazed sections ourselves here at Tylö, they all satisfy the stringent safety and feature requirements.

### ③ GLAZED SECTION 52

Prefabricated glazed sections made of 6 mm, tinted, tempered safety glass with solid frames of natural, blonde aspen wood or slightly darker alder. Size: 1900 x 520 mm (h x w).

ITEM 9103 5040

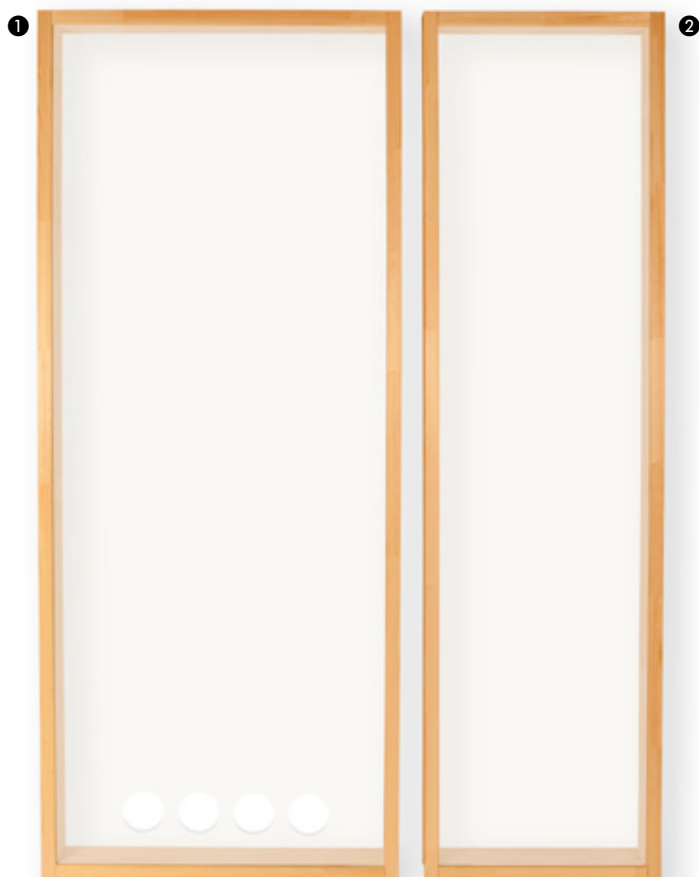

### ④ GLAZED SECTION 52 VENT

Prefabricated glazed sections made of 6 mm, tinted, tempered safety glass with solid frames of natural, light alder. Plus ventilation holes and mounting plate for fixing the heater to a wall. Size: 1900 x 530 mm (h x w).

## GLASS FRONTS & GLASS CORNERS

Tylö is expanding its range to offer an even greater choice in sauna design and construction. Based on the Evolve module series, our extended range makes it possible to create a stylish and spacious sauna by fitting a large number of new glass fronts and corners. Saunas can be constructed in a variety of sizes and configurations using the prefabricated wall modules and glazed sections, which are made of durable safety glass. The end result is always the distinctive contemporary design for which Tylö is known. Clear glass, aspen wood frame and aluminium floor frame. Strip packages and floor frames can be purchased separately. Customise your Tylö sauna with our specially-designed accessories, range of lighting options and no-threshold DGL Plus door (item no. 9511 3150) for a complete experience and exclusiveness that has made our sauna rooms a benchmark for sauna design worldwide.

#### **SENSE – LET YOUR SENSES ROAM FREE**

Sense is a brand new range of sauna heaters where elegant design marries Tylö's reliable performance and genuine quality. Sense lets all your senses roam free with its fast, comfortable heat, accurate temperature control and smart Eco features. All the heaters have a fibre-coated outer shell to minimise the risk of burns and a compartment for fragrant essences which can be removed for easy cleaning. The new design will add style and distinction to any sauna.

#### **FULL CONTROL – THE H SERIES**

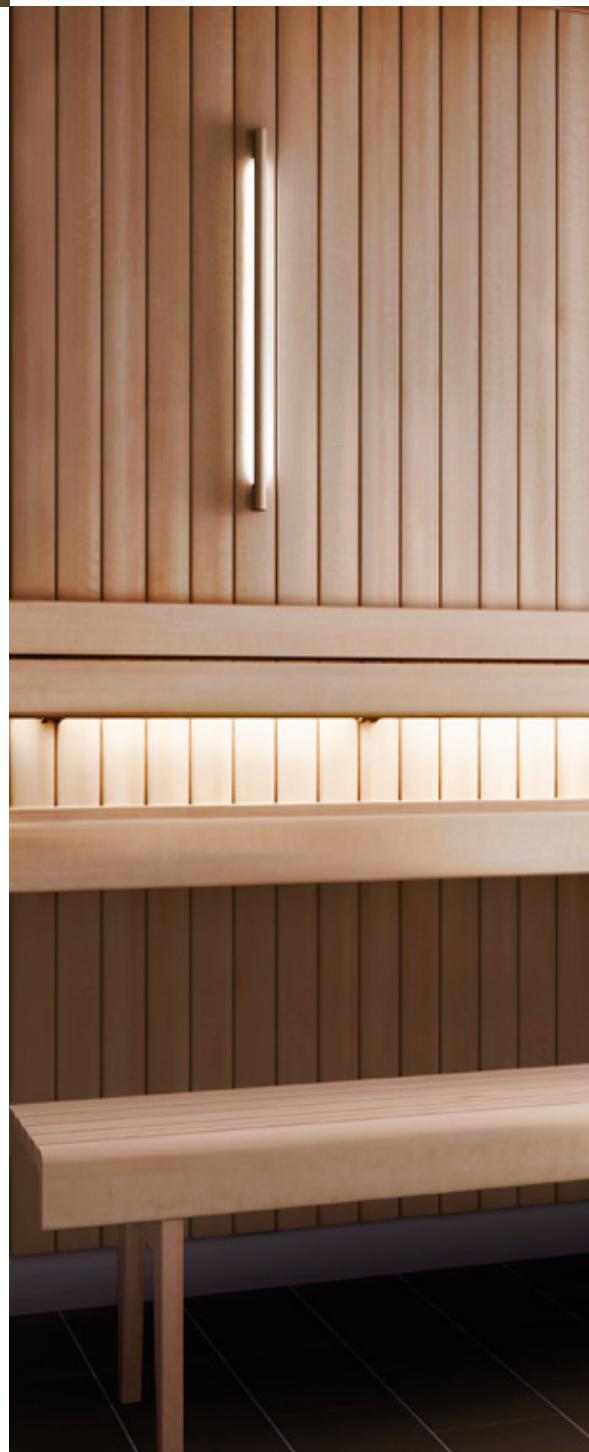

All of Tylö's Combi heaters now come with a touch control panel and a bottle of essential oil (lavender 10 ml).

#### **POWERFUL STONES**

Tylö uses natural stones of igneous, black diabase rock that withstands rapid heating and cooling.

Discover and

[www.tylo.com](http://www.tylo.com)

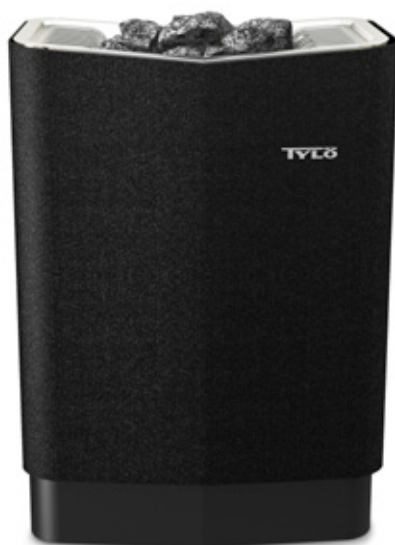

## SAUNA HEATER: **SENSE**

In a completely new design, Sense offers rapid and safe heat. The heater has a safety overheat cut-out, our patented, energy-saving "divided output" feature and standby mode for maximum energy efficiency. All heaters have a stainless steel stone compartment. Sense delivers reliable and precise heat every time you take a relaxing sauna. Choose either a wall-mounted or floor standing heater (legs are optional).

"Sense lets all your senses roam free with its fast, comfortable heat and smart Eco features."

**COMBI - AS ITS NAME SUGGESTS**

Combi is the heater that lets you enjoy dry, wet and steam saunas and has a built-in fragrance dispenser for aromatic essences.

**GUARANTEED SAFE**

Buying a prefabricated sauna room is not only the simplest and swiftest way to turn your dream of a sauna into reality. It's also the smartest and the safest, too. That way you can be sure of a really well-made sauna that will serve you well, year after year after year.

**ELECTRONIC TOUCH  
CONTROL PANEL**

The Combi heater features a stylish control panel from the h series. The control panel displays the time and temperature in the operating mode. You can set the temperature and control the humidity. set the start-up programme for the coming week with start repetition.

## SAUNA HEATER: COMBI & COMPACT

Heaters for dry, steam or classic saunas. Separate electronic control panel for wall installation inside the sauna. The Combi heater adds a stylish look to your sauna with its aluminium top and stainless steel stone compartment. Equally sleek in design, the Compact has an integrated time and temperature control knob on its front and features a thermostat and mechanical timer.

### ❶ COMBI COMPACT 4

4 kW output. 400 V (two-phase and neutral). For sauna rooms measuring 1.2-4 m³. Supplied with a 2.5 m cable.

ITEM NO. 6230 5000

### ❷ COMPACT 2/4

A heater for small sauna rooms. Stone compartment for use with Mini sauna stones. 2.2-4.5 kW convertible for connection to 230 V (single-phase) or 400 V (two-phase with neutral). For sauna rooms measuring 1.5-4.5 m³.

ITEM NO. 6220 2000

## SAUNA HEATER: **EXPRESSION**

1 2

Expression takes sauna heaters to a new level. Expression's Scandinavian design and clean-cut lines raise the bar for how good a sauna heater can look. Tylö's most recent design has won the international Red Dot Design award.

reddot design award

**1 EXPRESSION**

A floor-standing heater with robust aluminum legs and a reservoir for fragrance oil. Black. 10 kW output. 3 x 230 V, 3 x 400 V+N (requires RB30 + control panel at installation).

**EXTRA FEATURES FROM THE START**

As well as stylish looks, Expression sports the same quality features as other Tylö heaters: twin-side air chambers for enhanced warm air distribution, a fragrance dispenser and double-shell design. Expression also incorporates Tylö's energy-saving "divided output" feature. This means the heater automatically switches to energy-saving mode when the temperature reaches the required level.

**INTEGRAL STEAM SAUNA FEATURE**

Expression Combi also has a steam feature for a relaxing steam sauna. Water supply and drainage through mains connection.

**AWARD-WINNING DESIGN**

The Red Dot Design Award is an international distinction for outstanding design, conferred annually by Design Zentrum Nordrhein Westfalen. The award is sometimes also referred to as the "Nobel Prize for Designers".

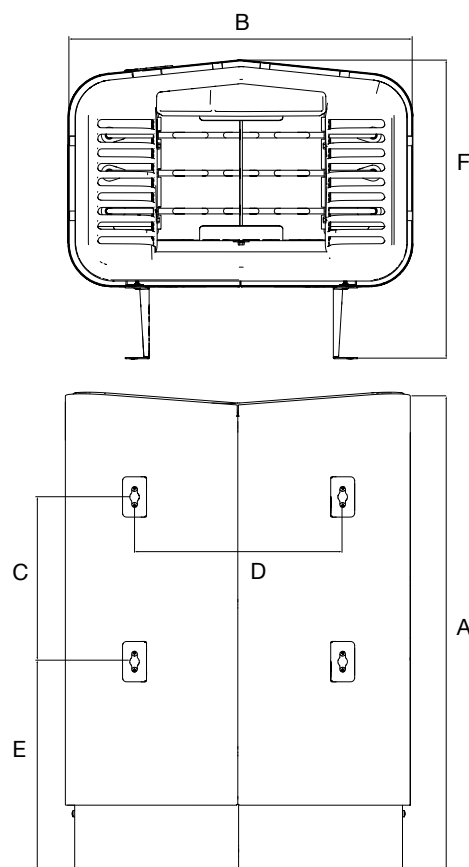

OPTION	EXPRESSION	EXPRESSION COMBI

Fragrances	-	▪
Steam feature	-	▪
Sauna stones (1 packet)	+	+
Control panel and relay box	+	▪

▪ = included + = optional - = not optional

## SAUNA HEATER IN TECHNICAL TERMS

Always choose the highest recommended output in relation to the volume of the sauna. This is especially important in log saunas and saunas with glazed wall sections. The greater the heat output in relation to the size of the sauna room, the lower the overall energy consumption. Example: In a sauna measuring 4 m<sup>3</sup>, 6.6 kW is a better choice than 4.5 kW.

### PRACTICAL WALL INSTALLATION – SIMPLE CLEANING

Install the heater on the wall, with the bottom edge 270 mm above the floor (170 mm for Compact and Combi 4).

## SAUNA HEATER

# SAUNA HEATER FOR PROFESSIONAL USE

For decades, Tylö has been the obvious choice for saunas in hotels, clubs, swimming baths and sports facilities. Settings like these prioritise reliability and low energy consumption, and both the design and materials need to be robust enough to stand up to the rigours of frequent use.

**1 TYLÖ MEGALINE OC**

The robust Megaline OC follows a proven tradition of excellence and can be installed in all kinds of saunas - even in the centre of your sauna if you want. Designed for saunas of 9 to 24 m<sup>3</sup>. The slightly smaller Megaline OC 10 kW is suitable for saunas of 9 to 13 m<sup>3</sup>. The elegant H2 control panel and the WE14 relay box control all the sauna features.

**TYLÖ MEGALINE OC 10.5 KW**  
ITEM NO. 6405 0230

**TYLÖ MEGALINE OC 12 KW**  
ITEM NO. 6405 0234

**TYLÖ MEGALINE OC 15 KW**  
ITEM NO. 6405 0235

**2 TYLÖ MEGALINE SK**

For saunas between 18 and 46 m<sup>3</sup>. A steam generator can be connected to the SK heater to further enhance your sauna experience. Choose a traditional, deeply warming dry sauna or a soothing steam bath. The SK heater is an outstanding choice for public saunas, where expectations for a pleasurable sauna experience are high. Set-up is simple with the H2 control panel, which controls the sauna in conjunction with the WE14 relay box.

## SAUNA HEATER: **CONTROL PANEL**

There are a number of different control panels for Tylö heaters offering a wide range of individual setting options. All control panels are user-friendly with clear displays that allow you to customise your sauna for optimal performance and energy efficiency.

## FUNCTIONS

Tylö's stylish h1 control panel makes it easy to adjust the sauna or steam bath.

## SETTINGS

## CURRENT STATUS

## HOME

## UP/DOWN

## BACK

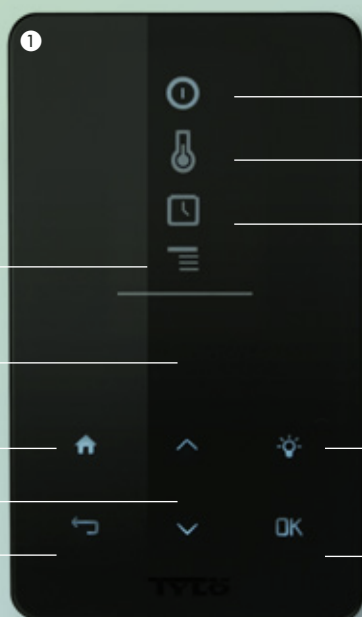

ON/OFF

TEMPERATURE

START TIME, SELECTED PROGRAMME

LIGHTING

OK

### 1 h1

Electronic touch control panel displays the time and temperature in the operating mode. Can be programmed to start up to 24 hours in advance and run for 1 to 23 hours for a steam room and 1 to 12 hours for a sauna. The control panel also allows you to regulate the lighting in your sauna. Tylö's h1 control panel lets you set the maximum temperature, switch between Fahrenheit and Celsius, use a 12-hour or 24-hour format, set different languages, and more advanced settings and test options. Tylö's h1 control panel can replace Tylö's CC10 and CC50 control panels. Size: 140 x 80 mm, depth 19 mm.

ITEM NO. 7200 1020

### 2 EC50

Tylö's EC50 control panel makes it simple and economical to have complete control of your sauna and steam sauna. It has an easy-to-read display for convenient control of the start-up time, temperature and lighting. The panel incorporates a child-proof code lock to prevent accidental operation. Compatible with the following heaters and steam generators: Sense Plus, SD, SDK, VB and VA. Size: 130 x 190 mm, depth 27 mm. IP 24.

ITEM NO. 7121 4050

### 3 CC300

The CC300 can be set to run between 1 and 24 hours and has a display that indicates temperature, remaining operating time, day and time. In addition, the CC300 comes with a switch for lighting, English instructions, memory features, security

code and energy-saving, stand-by function. The CC300 has an integral weekly timer for optional automatic on/off operation and stand-by mode at preselected times on the days of your choice. The control panel can also be controlled from external units. Size: 130 x 190 mm, depth 27 mm. IP 24.

ITEM NO. 7111 5150

### 4 CC300T

The CC300T can be set to run between 1 and 24 hours and has a display that indicates temperature, humidity, remaining operating time, day and time. In addition, the CC300T is equipped with a switch for lighting, English instructions, a memory, security code and energy-saving, stand-by function. The CC300T has an integral weekly timer for optional automatic on/off operation and stand-by mode at preselected times on the days of your choice. The control panel can also be controlled from external units. Size: 130 x 190 mm, depth 27 mm. IP 24.

ITEM NO. 7111 5155

## EXTERNAL SWITCH

On/off switch to control the sauna from locations other than where the control panel (not the TS control panel) is installed. Indicator light shows if the sauna is on or off. Fits standard wall mounting box recessed or surface mounted. Size: 80 x 80 x 47mm

ITEM NO. 9090 8045

# WOOD-FIRED SAUNA

Crackling heat, a resinous fragrance – there is something very special about a wood-fired sauna. Here at Tylö, we appreciate saunas in all their various forms, so we naturally have a wide range of wood-fired saunas too. We are pleased to offer wood-fired stoves from the Finnish manufacturer, Kastor, renowned for its world-class quality. The wood-fired stoves can be installed with Tylö's complete chimney systems made of easy-to-assemble modular components.

**1 SAGA 20 PK**

Saga takes the pleasure of wood-fired saunas to new heights. Saga is available with 150 to 230 kg of exposed stone and emits wonderfully soothing heat and steam. The stones with their rough surfaces make the stove a delightful focal point.

ITEM NO. 6405 4290

**2 KARHU**

From a purely aesthetic perspective, it's easy to see that Karhu's gleaming steel design can enhance any sauna interior. Yet it's the inside that really shines. Designed to be safe and strong, Karhu has a deep stone compartment, hot-air deflector and reinforced door. The smart Coanda air circulation system ensures

optimal heating efficiency and reduced wood consumption. Combining minimalistic style with practical functionality, this model is designed to provide the ultimate in sauna comfort in every way.

# WOOD-FIRED SAUNA IN TECHNICAL TERMS

Always choose the highest recommended output in relation to the volume of the sauna. This is especially important in log saunas and saunas with glazed wall sections. The greater the heat output in relation to the size of the sauna room, the lower the overall energy consumption. Example: In a sauna measuring 4 m³, 6.6 kW is a better choice than 4.5 kW.

## COANDA

The Karhu wood-fired stove fitted with our patented Coanda design, a feature that stores the heat for a long period. One stoking is usually sufficient to heat the sauna from 20°C to the temperature required. Since our patented Coanda system effectively stores the heat for a long time, you can continue sprinkling water even when the fire has gone out.

## SAUNA CHIMNEYS

We offer complete, high-quality chimney kits specially developed for use with Tylö wood-fired sauna stoves. Chimney kits are based on an easy-to-assemble modular system. Our modular chimney systems are used primarily with wood-fired sauna stoves in sauna rooms without an existing chimney, and for conversions and new constructions. The flues are manufactured in acid-resistant stainless steel, with high-grade ceramic insulation on the outside.

### SAUNA CHIMNEY KIT Ø 130

Ø 130 mm fits our 27–37 kW wood-fired sauna stoves.

ITEM NO. 6505 3030

### INSULATED EXTENSION MODULES

130/1000 mm

Insulated intermediate section, length 1000 mm. Ø 130 mm.

	129	81	45 - 50	670 x 480 x 790
	129	88	55 - 60	670 x 480 x 920
	129	129	85 - 90	750 x 580 x 920
	129	93	145 - 150	600 x 585 x 825

is the same as Karhu except that the water tank is on the left-hand side (viewed from the front). \*\*\* Also fits a larger sauna of 37 m³. \*\*\*\* 150 mm on the water reservoir side.

# OPTIONAL & ACCESSORIES

It's all in the details. Our accessories are testimony to the truth in this little adage. A few carefully selected products from our range of accessories lend a personal touch to your sauna.

### SERIES OF ACCESSORIES

Sauna accessories are more than just extras. A few well-chosen products from our range of accessories will give your sauna a personal touch.

### NEW PRODUCTS

Our development centre is committed to continuously improving and creating new sauna and steam products. Over the years, many of these have become market leaders. Tylö's development work and manufacturing processes are closely monitored.

### NATURAL ESSENTIAL OILS

Tylö's essential fragrance oils make your sauna experience all the more special and transport you to a world of absolute pleasure. Add a couple of drops of fragrant oil to a ladle of water and pour over the hot sauna stones to transform your sauna bath into an experience that stimulates all your senses.

### 1 SAUNA STONES

Natural stones of black diabase that tolerate rapid heating and cooling.

#### SAUNA STONES

One box (approx. 14 kg) is sufficient for heaters with outputs of 6.6 to 8.8 kW. Heaters with outputs of 10.7 to 20 kW require two boxes.

ITEM NO. 9014 1000

#### MINI SAUNA STONES COMPACT

7 kg diabase stones.

ITEM NO. 9014 1005

#### MINI SENSE SAUNA STONES

20 kg of diabase stones. One box is just enough for a Sense heater.

ITEM NO. 9014 1050

### WOOD-FIRED SAUNA STONES

Larger stones of black diabase that tolerate water sprinkling; suitable for wood-fired sauna stoves. The larger stones provide better air circulation and retain heat longer. One box holds 20 kg.

ITEM NO. 9014 1007

### 2 WATER SPRINKLER

Innovative solution for sprinkling water. Connect to hot or cold water. Includes 7 m of twined hemp rope running through brass eyebolts, a sprinkler head, a valve box with lever and rope bolt, and plumbing connections. Available in a gift package complete with bronze plaque.

ITEM NO. 9034 1000

### 3 SHOWER BARREL

10-litre shower barrel with automatic water refill for a refreshing friction bath after your sauna.

ITEM NO. 9002 9050

### 4 TRANSFORMER LED

200-240 V ~/12 V. Max. load 15 W. NB. The transformer must always be installed outside the sauna.

ITEM NO. 9090 1030

### 5 SPEAKERS

Steam and heat-resistant design. Suitable for recessed installation inside the steam room. 50 W output.

#### SPEAKER A

Recessed installation under the lower bench in the sauna. Installation size: diameter 117 mm, depth 60 mm. Supplied in pairs.

ITEM NO. 9080 2000

#### SPEAKER B

Surface mount. Size 230 x 145 mm, depth 165 mm. Supplied in pairs.

ITEM NO. 9080 3000

### 6 SAUNA LIGHTING E28

Dimensions: 65 x 28 x 350/700/1070 mm. IP class 54. Warm-white glow. Voltage 12 V DC. Transformer not included.

#### SAUNA LIGHTING E28

1070 MM 4.1 W

ITEM NO. 9001 1400

#### SAUNA LIGHTING E28

700 MM 2.4 W

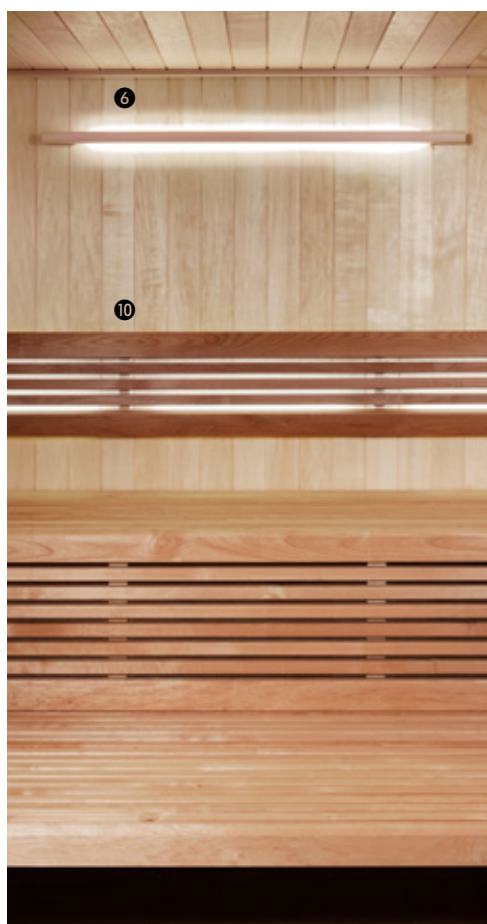

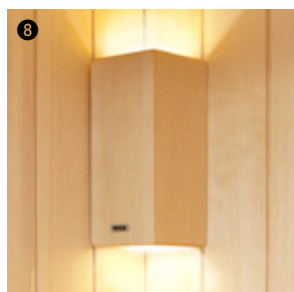

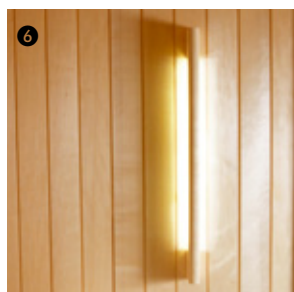

ITEM NO. 9001 1402

#### SAUNA LIGHTING E28

350 MM 0.8 W

ITEM NO. 9001 1404

#### 7 SAUNA LAMP 40 W

For wall mounting. White lamp holder E14. IP 55. Max 40 W. ø 90 mm, height 170 mm.

ITEM NO. 9001 1000

#### 8 SAUNA LIGHTING E90

0.8 W. Dimensions: 90 x 90 x 200 mm. IP class 54. Warm-white glow. Transformer not included.

ITEM NO. 9001 1420

#### 9 SAUNA LAMP 60 W

For wall mounting. White lamp holder E14. IP 55. Max 60 W. ø 205 mm, height 105 mm. IP 24.

ITEM NO. 9001 1004

#### 10 SAUNA LED LIGHTING

Package includes lighting strips and transformer. Can be installed both outside and inside the sauna (not in the ceiling). Warm-white glow. Voltage 12 V. IP 54. Transformer LED 12 V DC 15 W.

##### SAUNA LIGHTING LED 1

Length 500 mm. 2.4 Watt.

ITEM NO. 9001 1022

##### SAUNA LIGHTING LED 2

Length 870 mm. 4.1 Watt.

ITEM NO. 9001 1024

##### SAUNA LIGHTING LED 3

Length 2 x 500 mm. 4.4 Watt.

ITEM NO. 9001 1026

##### SAUNA LIGHTING LED 4

Length 3 x 500 mm. 7.2 Watt.

ITEM NO. 9001 1028

#### 11 LIGHTING STRIPS

Install behind the backrest for pleasant, subdued lighting in the sauna. Can be cut to size. Voltage 12 V. Connect to 12 V transformer. IP 65.

##### LIGHTING STRIP 38

Length 38 cm. 12 W output.

ITEM NO. 9001 1190

##### LIGHTING STRIP 50

Length 50 cm. 15 W output.

ITEM NO. 9001 1192

##### LIGHTING STRIP 90

Length 90 cm. 27 W output.

ITEM NO. 9001 1194

##### LIGHTING STRIP 190

Length 190 cm. 57 W output.

ITEM NO. 9001 1196

#### 12 LED LIGHT STRIP

The light strip has been developed to allow for more subtle lighting effects. Requires 12V DC constant voltage and is dimmable. Mounting hardware included for easy installation. Warm white 3000K.

##### LED LIGHT STRIP 38 CM

12V/DC 0.25 W

ITEM NO. 9001 1350

##### LED LIGHT STRIP 50 CM

12V/DC 0.40 W

ITEM NO. 9001 1352

##### LED LIGHT STRIP 90 CM

12V/DC 0.80 W

ITEM NO. 9001 1354

##### LED LIGHT STRIP 190 CM

12V/DC 1.80 W

ITEM NO. 9001 1356

LED LIGHT STRIP MADE-TO-MEASURE 12V/DC 1 W/M

#### ❶ ASPEN LAMP SHADE

Decorative aspen lamp shade, spreads a gentle glow in the sauna. Fits our 40 W lamps.

##### LAMP SHADE ASPEN-V

Wall mounted.  
50 x 28 x 15 cm.  
ITEM NO. 9009 1010

##### LAMP SHADE ASPEN-H

Corner mounted.  
50 x 34 x 8 cm.  
ITEM NO. 9009 1011

#### ❷ LAMP SHADE SR

Exclusive shade made of narrow aspen or alder slats. Fits lighting strip 38.

##### LAMP SHADE ASPEN V SR

Wall mounted.  
54 x 24 x 6 cm.  
ITEM NO. 9009 1017

##### LAMP SHADE ASPEN H SR

Corner mounted.  
54 x 22 x 4 cm.  
ITEM NO. 9009 1018

##### LAMP SHADE ASPEN V SR

Wall mounted.  
54 x 24 x 6 cm.  
ITEM NO. 9009 1015

##### LAMP SHADE ALDER H SR

Corner mounted.  
54 x 22 x 4 cm.  
ITEM NO. 9009 1016

#### ❸ LAMP SHADE 40/60

Wall-mounted pine shade for use with 40 W and 60 W sauna lamps. 25 x 25 x 14 cm.  
ITEM NO. 9009 1002

#### ❹ LAMP SHADE GL

Elegant lamp shade made of specially chosen aspen. Fits our 40 W lamps. Intended for corner mounting. 50 x 36 x 4 cm.  
ITEM NO. 9009 1003

#### ❺ OPUS 100 H100

Sauna lamp. For wall mounting. Grey lamp holder G9, 25 W, 230 V, IP 44, matt opalescent glass. ø 100 mm, height 100 mm.  
ITEM NO. 9001 1090

#### ❻ OPUS 100 H125

Sauna lamp. For wall/ceiling mounting. Grey lamp holder G9, 25 W, 230 V, IP 44, matt opalescent glass. ø 100 mm, height 125 mm.  
ITEM NO. 9001 1091

#### ❼ OPUS 100 H175

Sauna lamp. For wall/ceiling mounting. Grey lamp holder E27, 40 W ceiling, 60 W wall, 230 V, IP 44, matt opalescent glass. ø 100 mm, height 175 mm.  
ITEM NO. 9001 1092

#### ❽ OPUS 100 H175

Sauna lamp. For wall/ceiling mounting. Grey lamp holder E27, 40 W ceiling, 60 W wall, 230 V, IP 44, clear glass. ø 100 mm, height 175 mm.  
ITEM NO. 9001 1093

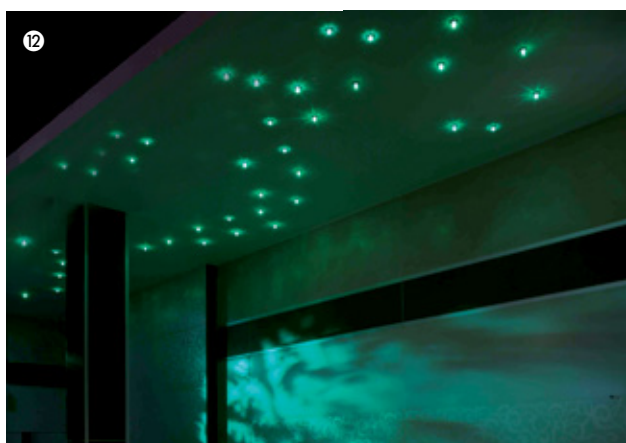

#### ❾ OPUS 200 H135

Sauna lamp. For wall/ceiling mounting. Grey lamp holder E27, 40 W ceiling, 60 W wall, 230 V, IP 44, matt opalescent glass. ø 200 mm, height 135 mm.  
ITEM NO. 9001 1094

#### ❿ LIGHT ON HALOGEN

Sauna lamp. For wall/ceiling mounting. Grey GU10, 35 W, 230 V, IP 44. ø 100 mm, height 115 mm.  
ITEM NO. 9001 1003

### 11 OPTICAL FIBRE LIGHTING

Halogen lighting for mood-inducing lighting in all sorts of settings. The lighting source is embedded in a projector that is placed outside the sauna room.

The length of the optical fibres determines the maximum distance between the projector and the light points.

#### FIBRE LIGHT STANDARD

42 W with 6 light points (2 x 2 m, 2 x 2.5 m and 2 x 3 m).

ITEM NO. 9001 1100

#### FIBRE LIGHT PUBLIC

42 W with gilded light fittings and 8 light points (2 x 2.5 m, 3 x 3 m and 3 x 3.5 m).

ITEM NO. 9001 1120

#### FIBRE LIGHT COLOUR S

75 W with 9 light points (1 x 0.5 m, 2 x 1 m, 3 x 1.6 m, 2 x 1.9 m, 1 x 2.3 m) and a rotating disc for fixed or changing colours.

ITEM NO. 9001 1125

#### FIBRE LIGHT COLOUR

75 W, as above but with 9 light points on 2.5 m cables for large rooms.

ITEM NO. 9001 1130

### 12 RUBEN SKY LED

Spread a meditative, starlit mood in your sauna with our starry sky LED lighting. Select a colour that suits the occasion and matches the interior of the sauna. Also included is a remote control that gives you a choice of seven pre-installed programmes and the option of creating your own programme lasting up to 20 minutes with as many as 20 colour changes. Cable connections, 180 mm mounting

sleeves and electronic equipment are included. Can also be synchronised with lighting behind the backrest (via a slave switch).

#### RUBEN SKY LED 20

Quantity: 20.

Output 11.6 W.

ITEM NO. 9001 1072

#### RUBEN SKY LED 30

Quantity: 30.

Output 17.4 W.

ITEM NO. 9001 1074

#### RUBEN SKY LED 40

Quantity: 40.

Output 23.2 W.

ITEM NO. 9001 1076

#### RUBEN SKY LED 60

Quantity: 60.

Output 34.8 W.

ITEM NO. 9001 1078

### 13 LED DOWNLIGHT

LED downlight with long lifespan for ceiling mounting inside the sauna. Warm-white

glow (3200-3500 K), 1.2 W output. Height 30 mm, ø 60 mm. The LED downlight is delivered in pairs in a carton together with a transformer. IP class 68.

ITEM NO. 9001 1089

### 14 TRANSFORMER 12 V/210 W

200-240 V~/12 V max. 210 W. Can be connected to a 7 m lighting strip or 42 x 5 W bulbs (Downlight).

ITEM NO. 9090 1015

### 15 TRANSFORMER 12 V/60 W

As above, but for max. 60 W.

ITEM NO. 9090 1020

### 1 VENTILATION GRILLE C

For sauna rooms over 25 m<sup>3</sup> in volume. Vent opening 300 cm<sup>2</sup>. Size: 24.5 x 25.5 cm.

**ASPEN**  
ITEM NO. 9018 1032

### 2 VENTILATION GRILLE B

Size: 14 x 22 cm.

**ASPEN**  
ITEM NO. 9018 1040

**ALDER**  
ITEM NO. 9018 1038

### 3 VENTILATION GRILLE A

Located on the outside of the air inlet/outlet. Size 10 x 22 cm (Installation size 8 x 16 cm).

ITEM NO. 9017 1000

### 4 VENTILATION HATCH B

Fits over the air outlet inside the sauna to regulate air flow. Size: 14 x 37.5 cm.

**ASPEN**  
ITEM NO. 9018 1036

**ALDER**  
ITEM NO. 9018 1034

### 5 VENTILATION HATCH C

For sauna rooms over 25 m<sup>3</sup> in volume. Adjustable opening 0 – 300 cm<sup>2</sup>. Size: 24.5 x 45.5 cm.

**ASPEN**  
ITEM NO. 9018 1030

### 6 AUTOMATIC DOOR CLOSER

Fits on the hinge side of the door. Closes from a fully open position. For controlled closure, add the hydraulic shutting device described below.

ITEM NO. 9030 1030

### 7 HEATER GUARD

**HEATER GUARD 6-8 V.**  
Wall-mounted design for heaters. 6.6-8 kW.

ITEM NO. 9000 1002

### HEATER GUARD 10-20 V

As above, for heaters 10.7 – 20 kW.

ITEM NO. 9000 1012

### HEATER GUARD 6-8 H

Corner-mounted design for heaters. 6.6-8 kW.

ITEM NO. 9000 1003

### HEATER GUARD 10-20 H

As above, for heaters 10.7 – 20 kW.

ITEM NO. 9000 1013

### 8 SHUTTING DEVICE

For controlled closure of your door. The perfect complement to the above door-closer.

**SHUTTING DEVICE, WOOD**  
ITEM NO. 9030 1000

**SHUTTING DEVICE FOR GLASS DOORS**

ITEM NO. 9030 1010

### 9 STRIP PACKAGE

Contains three strips of light, aspen, measuring 12 x 43 x 2400 mm. Suitable as a door lining, internal or external ceiling strip, etc.

ITEM NO. 9103 1575

### 10 THRESHOLD

Wooden threshold for subsequent installation. Suitable for DGB and DGL doors with door widths 7 and 8. Available in spruce and aspen. Size: 30 x 92 mm.

**THRESHOLD DGB WIDTH 7 SPRUCE**

**THRESHOLD DGL WIDTH 8 ASPEN**  
ITEM NO. 9103 1566

# THIS IS HOW TO KEEP YOUR SAUNA FRESH.

To get the most enjoyment out of and in your sauna, you should devote a little time to maintenance now and then. Below are a few tips on how to keep your sauna clean and fresh using simple means – and at the same time increase both the service life of the sauna and your own enjoyment.

## SURFACE TREATMENT

Apply several layers of boat varnish on the threshold and door handles, as well as on the wooden floor, floor rack or step (if present). This protects the wood's finish and provides a beautiful, dirt-repellent surface that always retains its freshness.

Sauna benches, backrests and skirting panels are oiled on both sides with Tylö sauna oil. This odourless treatment makes cleaning easier and produces a water-repellent surface. NB! Internal walls and ceiling must not be treated.

If the sauna has been fitted with glass windows or walls, it is advisable to treat the lower strips against the glass with extra care. Condensation often forms here and this can damage the wood. Apply boat varnish to the exposed sections or repeat the oil treatment at more frequent intervals.

## CLEANING

To achieve the maximum possible return from your sauna, it is important to keep it clean and attractive. You should therefore clean the sauna regularly. Scrub the benches and floor with a green liquid soap, which is a mild and gentle detergent with a pleasant, old-fashioned fragrance.

## THERMOMETER AND HYGROMETER

In order to produce accurate readings, these must be located on a side wall in relation to the heater and 1700 mm above the floor.

## WOODEN BUCKET AND LADLE

Tylö's wooden buckets have a plastic insert that prevents dry cracking after use. The bucket should be kept as cool as possible, ideally down on the floor and never on the upper benches.

We recommend occasionally treating the wooden bucket and ladle with Tylö's sauna oil to keep them in good condition.

## SAUNA STONES

The sauna stones must be of diabase or olivine, two types that can withstand both significant heating and rapid cooling. It is important for the stone compartment to be filled in the correct way. Take care to follow the instructions in the installation instructions supplied on delivery of your Tylö heater.

## INSPECT THE STONE COMPARTMENT

You should inspect the compartment twice a year, especially if you use the sauna frequently. Proceed as follows: Remove all the stones from the compartment. Vacuum up small stones and gravel, and clean any calcium deposits from the bottom of the stone compartment. Return any stones that are in good condition and replace all cracked stones with new ones.

## BIRCH BRUSH

The best time for making a birch brush is in the early summer, when the leaves are just the right size and are still free from inhabitants. Bind the brush in a large bouquet measuring 50–60 cm in length. At the same time, make a loop at the end so that it can be hung on the wall. Store the brush in a dry, dark, cool place. You can also place it in a plastic bag and store it in the freezer.

When you want to use the brush, first let it thaw out in lukewarm water before pouring water over it above the heater's stone compartment. This will make the birch brush like new again, with a wonderful fragrance and perfect for fanning your body. This feeling, of being able to take out a birch brush in the middle of winter that still retains the wonderful fragrance of summer, is delightful.

## OTHER INVIGORATING SCENTS IN THE SAUNA

Feel free to hang a bundle of juniper twigs from the wall of your sauna. They look decorative and give off a wonderful fragrance that remains for a long time.

## SOLVENT

Powder for descaling the water tank in Tylö Combi heaters and Tylö steam generators. Totally odourless and harmless. Sold in 80 g packs.

ITEM NO. 9090 3000

## SOLVENT 50

As above, in large pack of 50.

ITEM NO. 9090 3007

## SOLVENT SULFAMIC

An extremely effective descaling agent for professional use only in public facilities. Sold in 5 kg packs.

ITEM NO. 9090 3010

## SAUNA OIL

For treating benches and other wood surfaces in the sauna. Makes cleaning easier and gives a water-repellent surface. 1-litre plastic bottle (for approx. 6 m<sup>2</sup>).

ITEM NO. 9002 2050

## CLEANSING KIT

Removes calcium deposits on shower glass and glazed tiles. Always use the titanium wool ball with plenty of water. Impregnating liquid to protect shower glass and glazed tiles against a build-up of calcium deposits.

ITEM NO. 9090 3020

## TYLÖ IMPREGNATOR

Preserves and protects shower glass and glazed tiles. Spray on and rinse off with clean water.

ITEM NO. 9090 3030

## DISINFECTANT

For effective disinfecting of sauna rooms. 5-litre plastic containers.

ITEM NO. 9002 9100

# INFRA:

The integral infra panels in Tylö's Prime infra cabins emit invigorating long-wave infrared heat. The pleasant infrared heat is based on the CarbonFlex heating system, whose large infra panels guarantee an even distribution of heat across the benches, walls and floor. The CarbonFlex heating system is built on tried-and-tested technology that delivers superior safety and performance.

**ABOUT INFRA**

**INFRA CABIN**

# ABOUT INFRA

Infra heat in the sauna offers numerous benefits to you and your wallet. Electromagnetic radiation heats the sauna effectively and almost instantly, thus using 20% less energy than conventional saunas. Tylö's EvenHeat™ system spreads the heat evenly over your whole body.

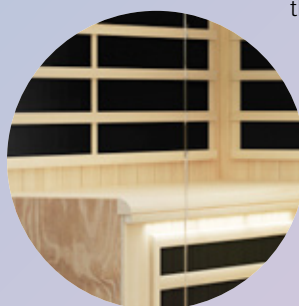

#### **PROBABLY THE BEST INFRARED TECHNOLOGY IN THE MARKET**

Our Pure Infra cabin provides reliable heat using state-of-the-art infrared technology. This means the lowest electromagnetic radiation (EMR) and electrical field (EF) levels of any infrared delivery system in the market today.

#### **NEAR INSTANT GRATIFICATION**

The EvenHeat™ system soothes your body by spreading the heat evenly throughout the cabin without any unnecessary exposure to electrical fields. Your body is effectively detoxified and aches and pains are relieved, leaving you totally relaxed and refreshed.

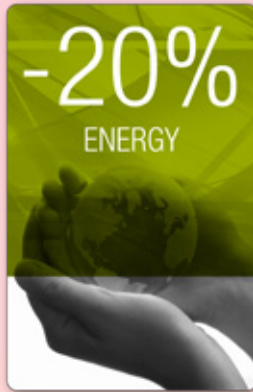

# INFRA CABIN: PRIME+

Pure Infra™ Low EMR  
Low EF

All infrared delivery systems produce EMR and EF to some extent. While the levels are typically low, it is still not clearly understood what the long-term effects of low exposure might mean. Pure Infra technology was developed to take the worry out of unnecessary exposure to EMR and EF. For instance, the electrical field in a Pure Infra is less than you'd experience from a computer screen or cell phone. After all, if the point is to detoxify, why expose yourself to any level of unnecessary radiation?

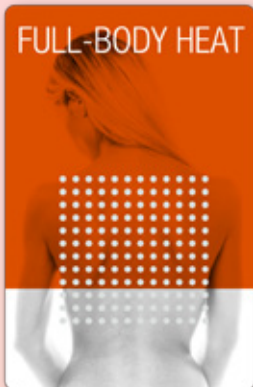

## BETTER FOR EVERYONE

Pure Infra cabins heat up quickly and efficiently with a simple tap of the touchscreen control. A Pure Infra cabin also heats up near-instantly to your set comfort level using up to 20% less energy than other systems. The safest and most comfortable infrared heat available for saunas is therefore also the most energy-efficient – and that's better for everyone.

## FULL-BODY HEAT

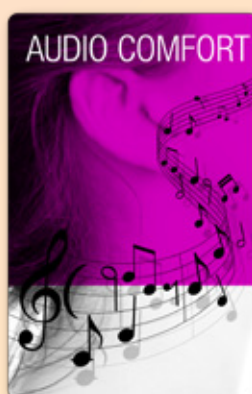

The exclusive EvenHeat™ system emits waves of infrared heat from its large heating panels to warm your entire body and a redistribution system gently and evenly spreads the heat throughout the cabin. EvenHeat™ ensures that there are no "cold spots" due to non-uniform distribution of heat. You are bathed in a wonderful, even heat from every angle, from the floor to the ceiling, using the safest infrared technology available.

CarbonFlex®

#### **MUSIC TO YOUR EARS**

Every Pure Infra cabin includes a touch-screen operated sound system so that you can listen to your favourite music on the radio or MP3 with USB, SD, and a 3.5 mm AUX. The discreet speakers enhance the minimalist finish of the interior and your well-being as you take your daily infrared sauna.

#### **EASY ON THE EYES**

Pure Infra cabins include tri-modal lighting systems, with soft valance lighting, ceiling reading lights and colour light therapy. This allows you to relax in the soft and diffuse valance lighting, use colour to create an energising ambience, or simply enjoy your favourite magazine or book without straining your eyes.

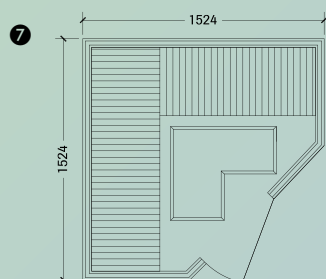

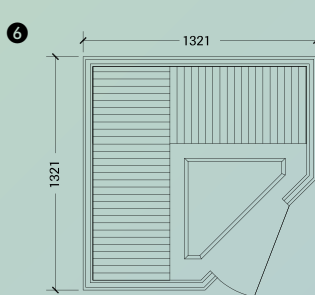

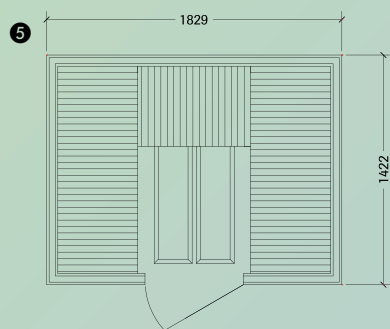

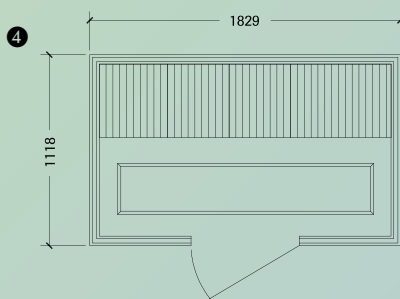

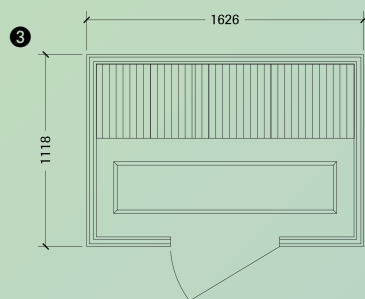

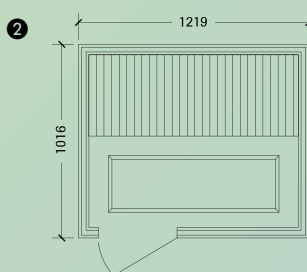

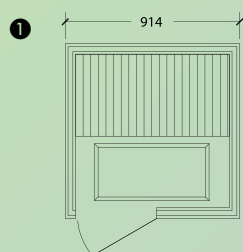

#### **THE LOWEST EMR AND EF AVAILABLE**

To put it simply, no other infrared cabin system keeps exposure to EMR and EF to a minimum better than Pure Infra. Our exclusive patent-pending technology means that Pure Infra cabins produce less EMR and EF than sanctioned by Sweden's radiation standards, which are the most stringent in the world.

# HEALTHIER INFRARED FOR EVERYONE

Whatever your taste, budget or space challenges, there is a Pure Infra system for you. Regardless of layout and model, Pure Infra cabins have a modern aesthetic with full glass fronts and an intuitive touchscreen control system that makes heat, light and sound adjustment simplicity itself. Your Pure Infra cabin is delivered ready for easy assembly and is powered from a household outlet. Just plug it in and you're ready to relax and detox in the comfort of your own home.
